# FOUR WAYS OF COOKING

Multi-Variable Dual-Function Cast iron Top controls air flowing through the cooking chamber

Air-tight ceramic cooking chamber retains heat and keeps food moist

Sealed Fire Box uses efficient natural lump charcoal

Patented, Precision Flow bottom vent controls the amount of air entering the fire box

## 1 Smoking

## 2 Baking

## 3 Grilling

## 4 Searing

# EXPLODED VIEW

## TOP VENT

Adjustable, to regulate airflow and precisely control temperature

## HANDLE

Which helps to control the airflow and the refore the internal temperature.

## FIRE RING

Stacks on top of the fire box, providing the shelf for the heat diffuser and cooking grids.

## FIRE BOX

The fire box rests in the ceramic base and must be filled with charcoal. Since the fire box is equipped with sophisticated openings and works with the vents at the bottom of the EGG, the air flow is constant and optimal when the EGG rulator and draft door are open.

## CERAMIC BODY

A ceramic dome with chimney that can be opened and closed easily because of the spring mechanism. The ceramic material features a protective glazed coating. The insulating, heat retaining properties of the ceramic material create a flow of air within the EGG, ensuring that dishes are cooked evenly and tastefully.

## THERMOMETER

Gives precise internal temperature readings. Monitor cooking progress without opening the EGG.

## COOKING GRID

The Stainless Steel Grid is used as the primary cooking surface for grilling and roasting.

## CHARCOAL GRATE

Sits inside the fire box. Perforated to allow air flow up through the EGG and any ash to drop down, for easy removal after cooking.

## SIDE TABLE

Using environmentally friendly materials--bamboo no harms and easy to grasp.

## BOTTOM VENT

Works in combination with the EGG rulator,regulating the inbound air supply to control temperature. Also enables easy removal of ash.

## STAND

Solid heavy duty steel with powder coating well-built. Its 4 universal wheels add mobility and make it easy to move around.

# CL SERIES FAMILY

The dimple pattern on the barbecue is charming and unique, like a dimple. This creative pattern makes the barbecue stand out from the crowd and is a unique addition to the outdoor barbecue scene. Orderly arranged yet unobtrusive, the barbecue grill becomes a visual focal point, and it instantly enhances the tone of the barbecue atmosphere, whether it's on the patio or in the countryside.

With different styles but consistent quality, there are three types of combined tables for you to choose from. Surely, one of them will capture your heart.

### Tables

Modular Cabinet

New Modular Table

Modular Table

## BBQ TOOLS

### Ash Box

To collect the ash and pour it out easily. It should be used with charcoal basket together.

### Ash Drawer

With the ash drawer, it can allow you to clean the excess ash easily from your unit without stopping to let the kamado cool down.

## TEMPERATURE CONTROL

### Hot Air Charcoal Lighter

Speed up the heating process of your coals so that your BBQ is ready for cooking in just a few seconds.

### BBQ Lamp

It is suitable for lighting during night barbecue and also increases the atmosphere.

### Glove

High temperature resistant material to protect hands and prevent accidental burns.

### Steam BBQ Cleaning Brush

The use of water and detergent makes it easier to clean the cooking grill.

### Rain Cover

Waterproof full rain cover to help keep your kamado looking great.

### BBQ Tool Set

Auxiliary tools for barbecue.

### Grid Gripper

Designed by human mechanics to clip half moon cast iron grid/plate.

Ergonomic design makes it easier to clip the cooking grill.

### Roast Nets Clip

Labor-saving design, easy to move the grill

### Meat Bear Claw

Time Saver, Easy & Fun to Use  
BBQ Pro Favorite  
Effortless Meat Shredding  
Flawless Meat Texture

### Wireless Digital Thermometer

Used to accurately detect the internal temperature of food.

### Instant-Read Food Thermometer

Used to accurately detect the internal temperature of food.

### Luxurious Electric Lighter

Further shorten the time of igniting charcoal.

### Charcoal Basket with Shared

Makes it easy to dispose of ashes and be ready for your next cook in seconds. The special separate grate design to brings the flexibility of two zone for grilling and smoking. Allows more free airflow, achieve high temperatures faster.

### Charcoal Chimney Starter

Get your charcoal glowing and ready to go in just minutes. Quick-release makes starting your charcoal grill fast & easy. Fill the starter with charcoal & light it. The hottest charcoals even stay on the bottom for better heat distribution & more efficient grilling.

# COOKING ACCESSORIES

## Versatile Cooking System

Cooking System facilitates an extensive variety of cooking set up and expand your grilling surface. You could cook ribs, whole roasts and chicken, vegetables, steaks, pizzas, and more all at once.

## Cooking Grid Expander

Increase the cooking area to two layers.

## Chicken Sitter

Cook whole chickens with ease and flavour it to your liking. (beer, marinade, juice, etc.

## Pizza Stone

Bake authentic, wood-fired, pizzeria-quality pizzas. High-impact ceramic stone distributes heat and absorbs excess moisture for a perfectly cooked pizza with a crispy crust.

## BBQ Rib Rack

Made of commercial-grade stainless steel for lasting quality. Rib rack design fits more ribs by cooking them vertically.

## SS Heat Deflectors

Transforms your grill into an outdoor convection oven, diverts heat around the perimeter of the grill.

## Ceramic Heat Deflectors

Transforms your grill into an outdoor convection oven, diverts heat around the perimeter of the grill.

## Half Moon Cast Iron Plate

Double sided griddle offers a smooth surface and a ribbed surface. Cast iron delivers excellent heat retention and is very sturdy.

## Rotisserie Kit

The rotisserie kit is a hassle free way to cook large roasts, chicken, and turkeys.
