KITCHEN**

THE COMPLETE OUTDOOR

Every gas grill is built to provide unparalleled cooking performance delivering great barbecue flavor. You can sear steaks to perfection, rotisserie cook poultry and roasts. Every part of the cooking system is designed and engineered for giving you the ability to cook almost anything on your grill in any style. We devote to combine the comfort of an indoor kitchen range with all the benefits of being outside. S T help create the ultimate backyard getaway.

Amazing Heat Retention

Made from high-grade stainless steel, these durable double-walled lid provide excellent heat retention and long lasting durability. Visible window and thermometer ensure even heat and heat retention for precise control.

Unmatched Performance

High quality and durable stainless steel burners and rear infrared burner are designed for heavy-duty "workhorse" grills. These cooking system provides superior heat distribution across the entire surface of the grill.

Perfect Temperature

Valves with 180 degree control knobs give you infinite heat control, allowing you to set your grill to the perfect temperature for searing, roasting or slow cooking.

Stylish Illumination

Proper lighting creates drama, style and function. LED front panel lighting fetches eye-catching flair, while interior halogen lighting provides needed illumination for grilling regardless of the time of day.
